

# WE HAVE A COMMITMENT WITH YOU AND YOUR SAFETY

## PROTECTION MEASURES VS. COVID-19

PRINCESS HOTELS & RESORTS  
MEXICO AND DOMINICAN REPUBLIC

## GENERAL PROCEDURES

- Daily control of the health status of our collaborators. Their temperature will be taken several times a day and a disinfection protocol will be implemented upon admission.
- Temperature control for all guests at check-in.
- Disinfection of guests' suitcases and shoes before entering the lobby.
- Daily disinfection of public areas (bars, restaurants, theaters, etc.).
- Disinfection of guest transport vehicles, three times a day.
- Cleaning of the air conditioners ventilation filters will be increased.
- Control and disinfection process of all purchases with specific protocols.
- Enabling of a special area to serve guests with related symptoms. 24 hours medical assistance at the hotel.
- Placement of disinfecting gels at strategic points, in common areas, and at the entrances of each consumption center.

## RECEPTION

- In the Reception / Check-in area, partitions will be installed for distancing and the recommended distances will be marked.
- Each counter will have disinfectant gel, which must be used in each attendance, both by the guest and the collaborator.
- More counters will be enabled in cases of massive check-ins, as well as specific counters for pre-check-ins.
- During check-in, the guest will be given a document with the safety and hygiene regulations that are being implemented.
- Controls of the physical state of our guests will be made through calls.

## ROOMS

- The room will be completely disinfected at the departure of the guests, using specific protocols.
- All linens in the rooms will be treated at high temperatures to ensure disinfection.
- Daily deep cleaning with specialized products.
- Maids will use specific protection protocols.
- Personnel access, be it room-service, minibar replacement, maintenance or others, will only be allowed if requested by the guest, and with all relevant protection measures.

# RESTAURANTS

- Hand sanitizing gel will be placed at the entrance of each restaurant, its use being compulsory for both guests and hotel staff.
- In the buffet areas, part of the food will be portioned and the rest will be served by our staff, as well as drinks.
- The separation distance between tables will be extended, and these can be occupied by a maximum of 4 people. In addition, there will be a limited capacity in the areas (restaurants, bars, theater, trains, etc.).
- For each service, the table will be disinfected carefully and single-use cloth tablecloths and napkins will be used.
- Specific protocols will be applied to guarantee the cleanliness of cutlery and food equipment.
- The restaurant menus will be sanitized after each use by our guests.

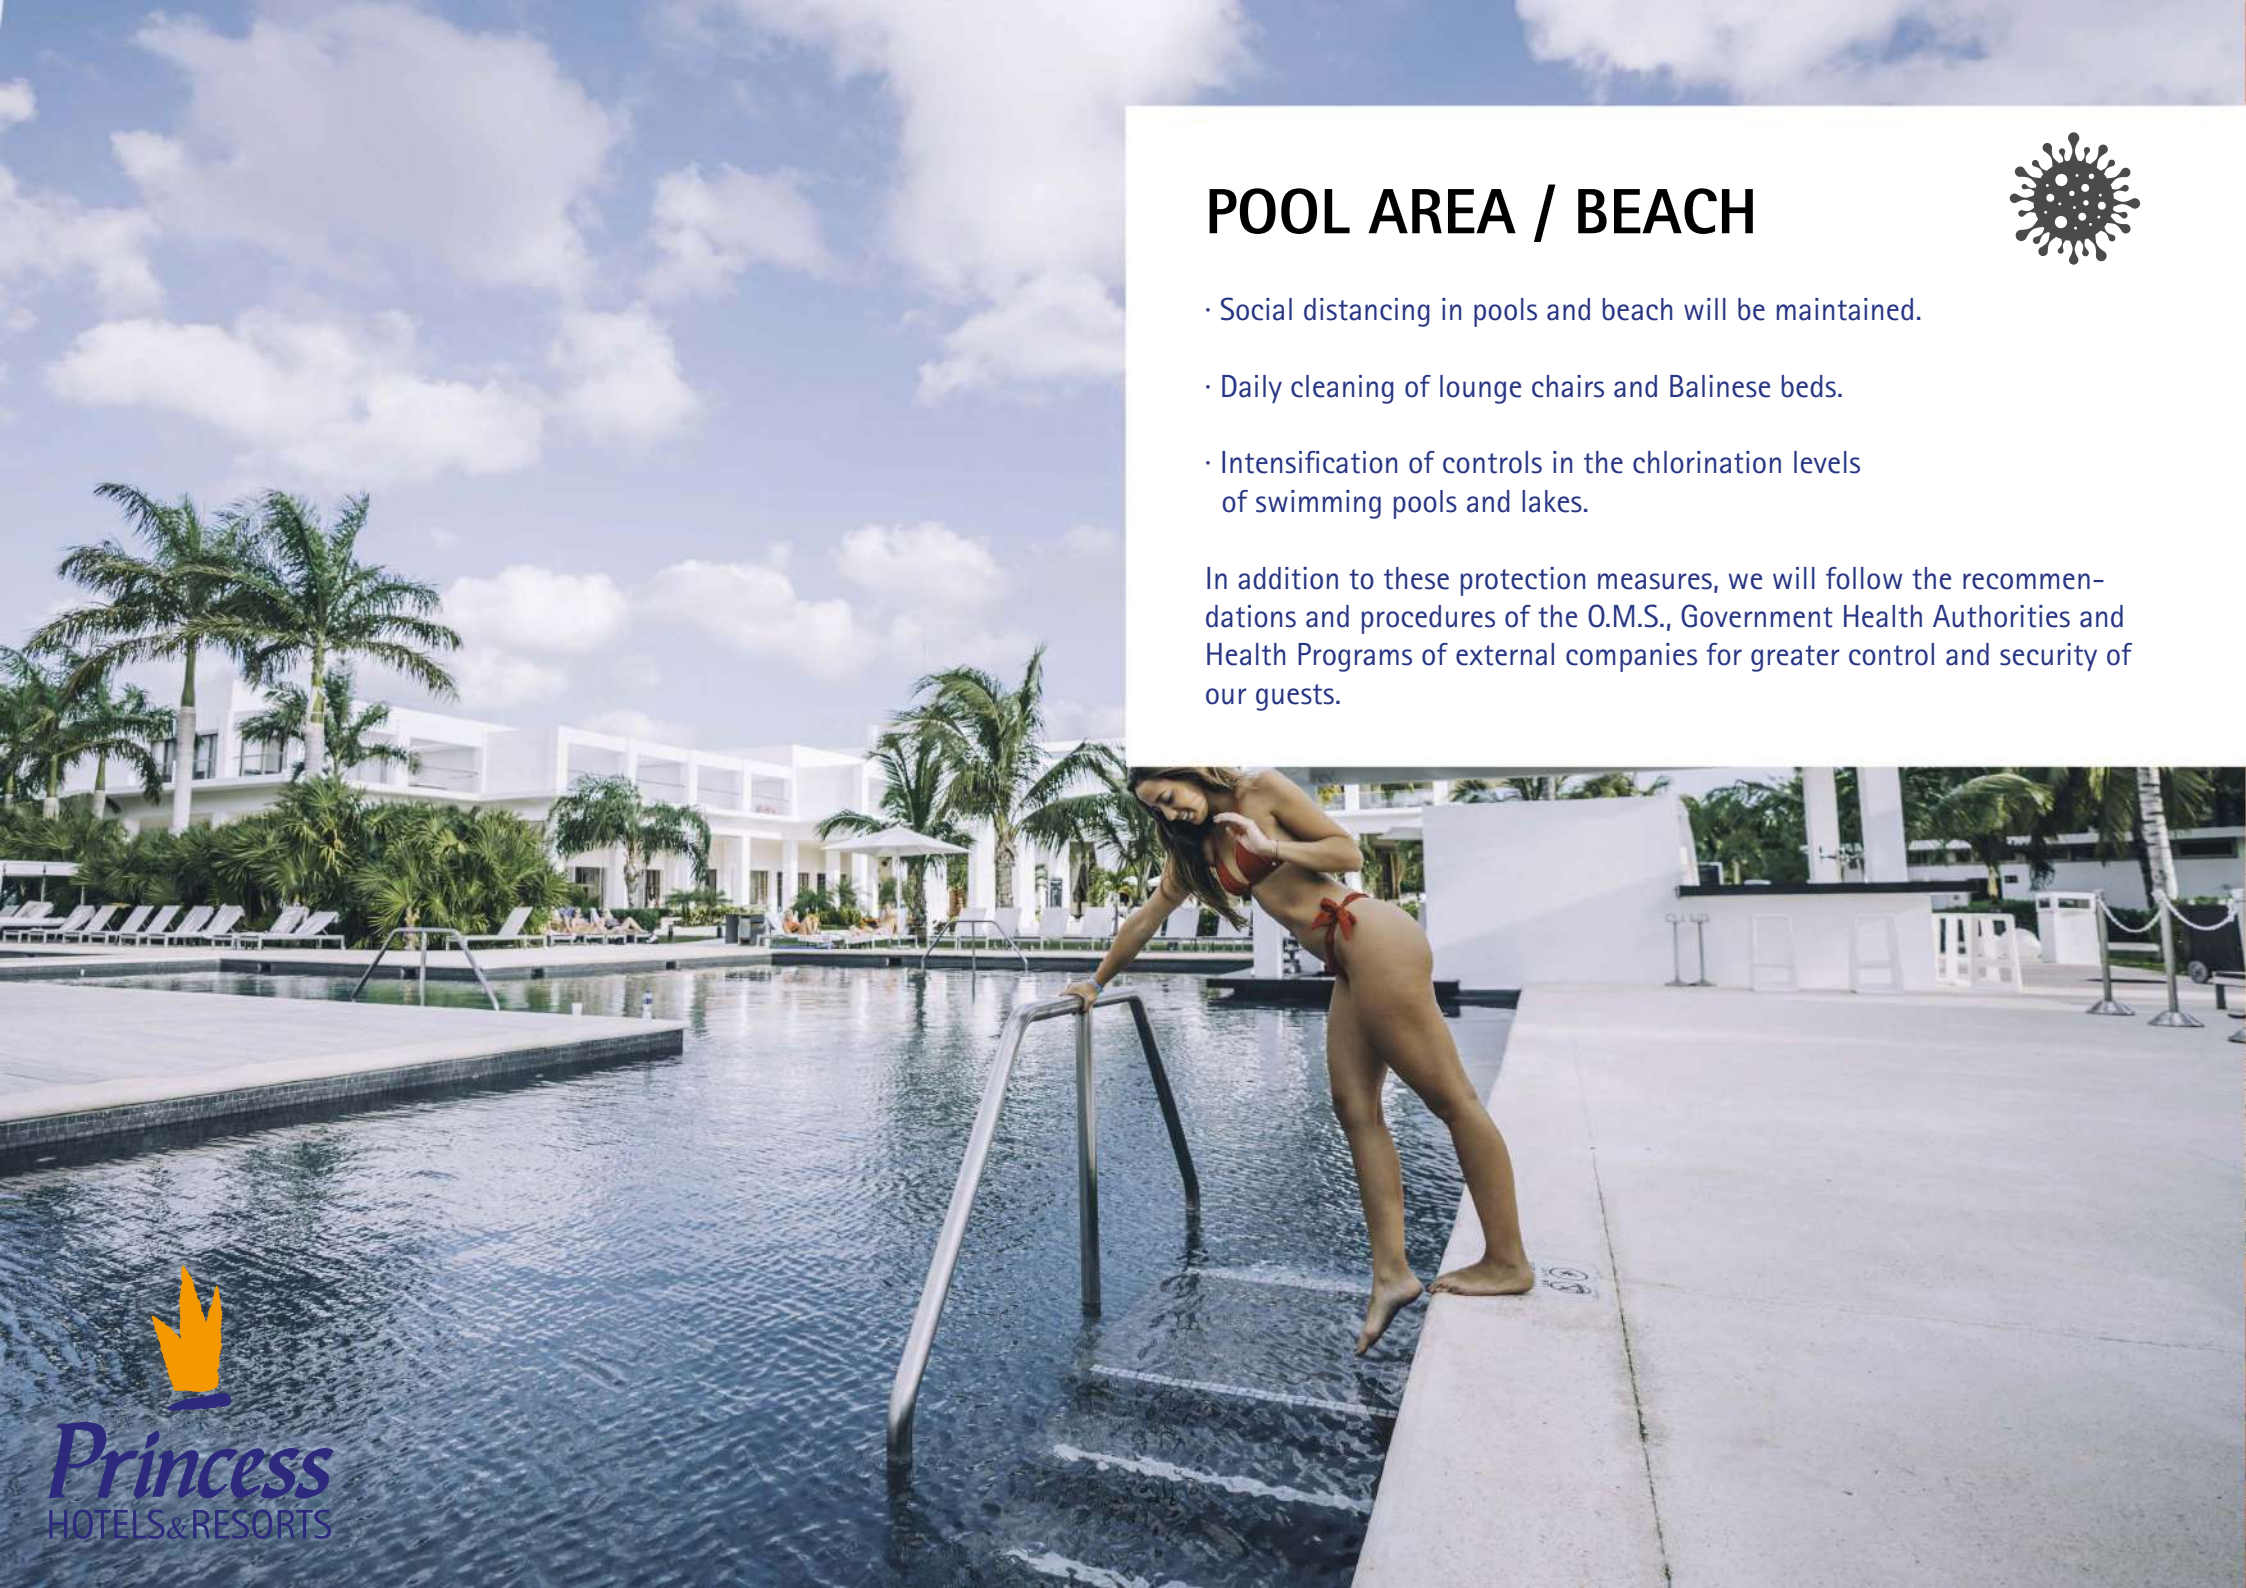

## POOL AREA / BEACH

- Social distancing in pools and beach will be maintained.
- Daily cleaning of lounge chairs and Balinese beds.
- Intensification of controls in the chlorination levels of swimming pools and lakes.

In addition to these protection measures, we will follow the recommendations and procedures of the O.M.S., Government Health Authorities and Health Programs of external companies for greater control and security of our guests.
